

STAINLESS STEEL FUEL TANK

NEW

Stainless steel tanks are built tough and will last for years. Poly tanks are prone to getting holes from rubbing against sand and grit that is between the tank and hull.

Stainless steel tanks are extremely reliable, and made to meet permeability requirements, they can withstand high temperatures ensuring safety in an excessive heat areas.

Ideal for fuel and diesel.

Solid Construction

Manufactured with stainless steel for strength and rigidity.

Bulkheads Inside

Tanks longer than 500mm contain baffles.

Built Tough

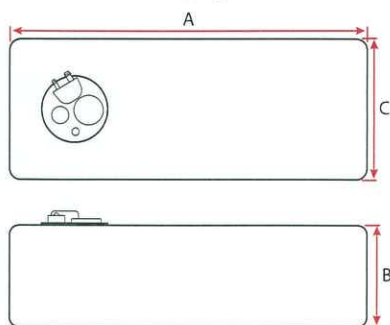

1mm stainless steel wall thickness.

CE Certified

All tanks are CE certified.

Features

Removable inspection port hole, vented cap, stepped 3/4" - 5/8" tail for external breather, 10mm tail for fuel hose, blank 1/4" BSP terminal for a second fuel pickup or diesel return and provision for a 5 hole fuel sender or mechanical gauge.

Part No.	Material	Capacity (Ltr)	Length A (mm)	Height B (mm)	Width C (mm)
374050	Stainless Steel	40	500	200	400
374052	Stainless Steel	56	700	200	400
374054	Stainless Steel	72	900	200	400
374058	Stainless Steel	112	1400	200	400
374060	Stainless Steel	120	1000	300	400
